# BACKGROUND

## SDGs

The Sustainable Development Goals consist of 17 global objectives with 169 measurable achievements and deadlines established by the UN as a worldwide development agenda for peace and prosperity for humanity and the planet, both now and in the future.

The problem of poverty is addressed within a multidimensional framework, involving a comprehensive examination of poverty from various perspectives and considering the multiple factors contributing to poverty. In the Outcome Document titled "Transforming Our World: The 2030 Agenda for Sustainable Development," the goal of ending poverty takes center stage among the 17 goals established in the SDGs.

# BACKGROUND

## SDGs in Indonesia

In the 2005-2025 National Long-Term Development Plan (RPJPN), the problem of poverty is viewed within a multidimensional framework. Therefore, poverty is not solely determined by income levels but encompasses various factors, including (i) the vulnerability of individuals or communities to falling into poverty and (ii) the presence or absence of fulfillment of citizens' basic rights, as well as the presence or absence of disparities in the treatment of individuals or groups in living a life with dignity.

# BACKGROUND

## Social Protection

Strengthening and enhancing social protection programs are crucial for addressing poverty. These programs increasingly target impoverished and vulnerable communities to achieve equitable development.

# PURPOSE

The Purpose of establishing “Philanthrop” are as follows:

- Achieving SDGs Goal 1: Eradicating poverty in all its forms.
- Increasing economic equality.
- Reducing poverty.
- Enhancing social integration.
- Reducing social exclusion.

However, we believe that these policies and programs may not be fully optimal. Therefore, an alternative solution is needed, one that goes beyond relying solely on the government's role and budget. Consequently, our team presents the "Philanthrop" solution as a collaborative platform involving philanthropic movements, aimed at eradicating poverty and promoting sustainable development by 2030.

Social protection programs aim to generate income effects that enable low-income groups to improve their consumption and well-being. During the pandemic, budget allocations for social protection were provided to assist lower-middle-income groups affected by the crisis. In 2020, through the national economic recovery program, the government implemented a countercyclical policy by providing fiscal stimulus in the realm of social protection, establishing a safety net for affected households and individuals to prevent them from falling further into poverty.

In 2022, the government will continue to gradually and measurably reform social protection programs. This will be achieved through efforts to synergize, integrate, transform, and expand existing social security programs, alongside the development of additional social security programs. To support these efforts, the government will also continue to enhance the Integrated Social Welfare Data (DTKS).

# PURPOSE

The Social Protection Budget aims to provide community protection, expedite poverty reduction, improve welfare, and support long-term human resource development. The Social Protection Policy for 2022 includes the following:

1. Continued refinement of the DTKS and its integration with various related data.
2. Support for Social Security Reform in a gradual and measurable manner.
3. Support for the Job Loss Insurance Program.
4. Improvement of the quality of social security program implementation and the development of adaptive social security schemes.
5. Continuing the Social Security Program through Social Assistance and Subsidies.

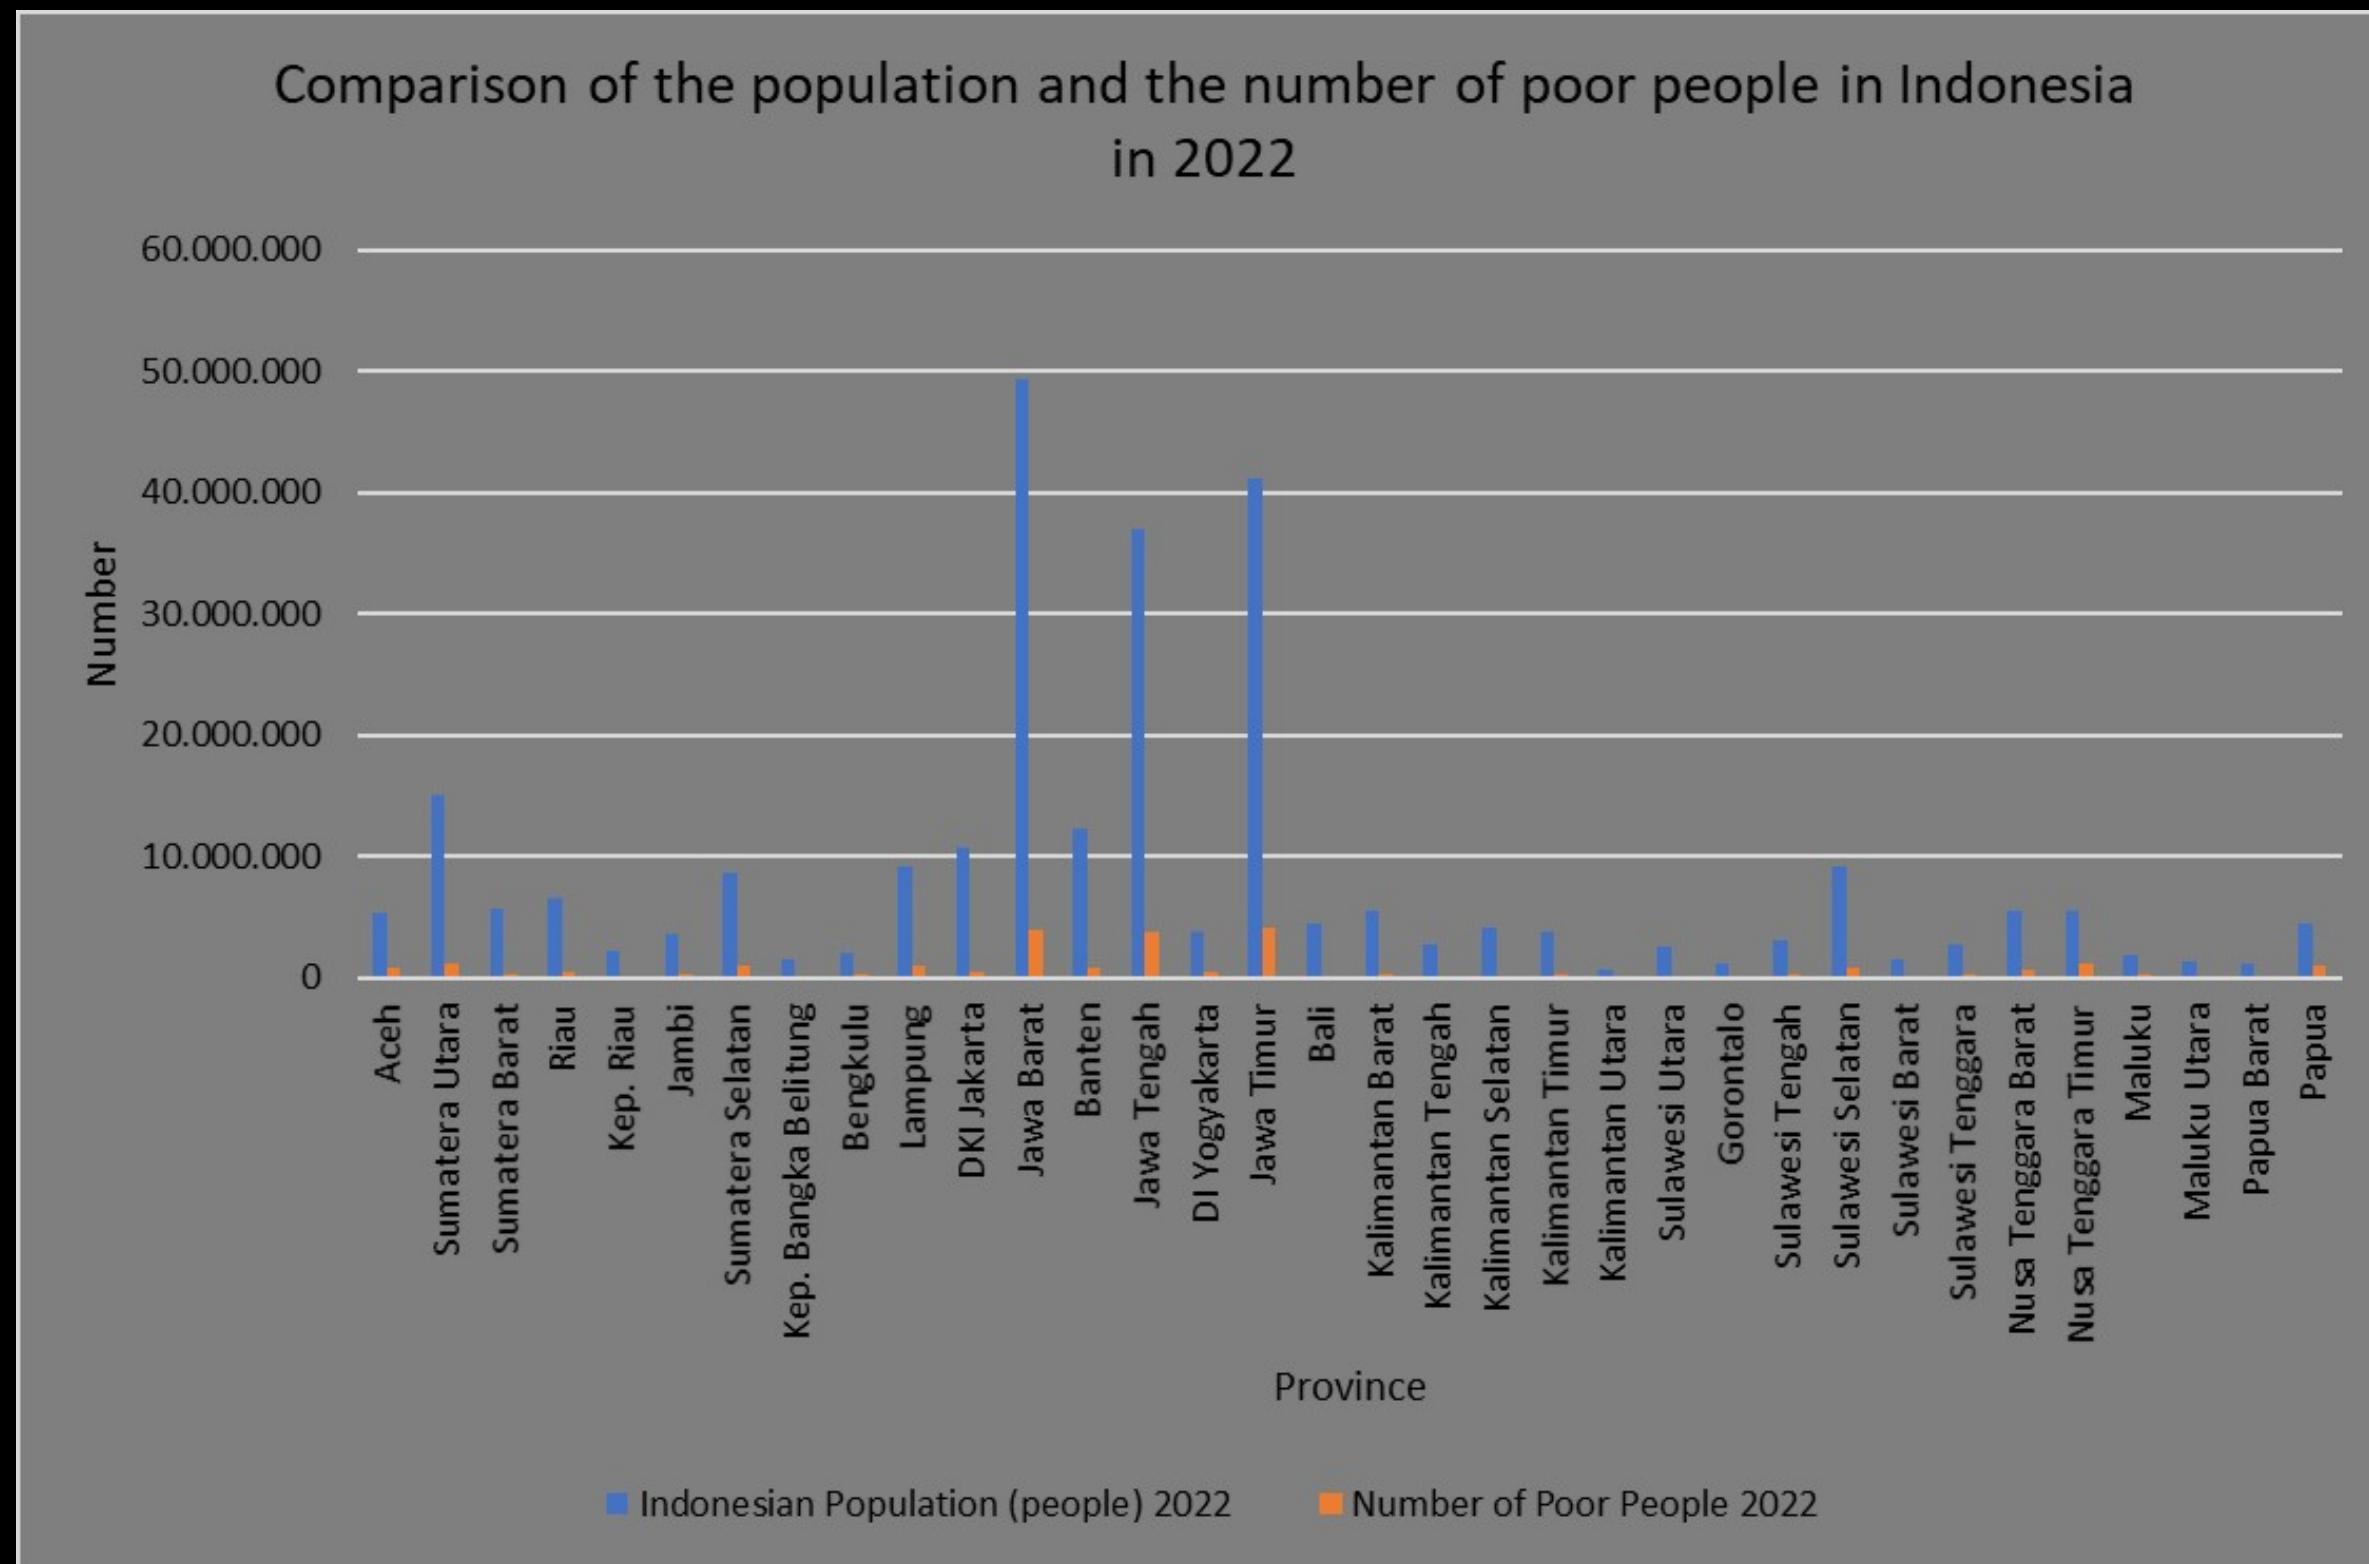

The utilization of the 2022 Social Protection Budget includes specific targets:

1. The number of PKH assistance recipients is 10.0 million families.
2. The number of recipients of the Basic Food Card Program assistance is 18.8 million families.
3. The number of KUR and Non-KUR Subsidy Recipients is 7.0 million debtors.
4. The number of participants receiving assistance from the Pre-Employment Card Program is 2.9 million participants.
5. The number of recipients of direct cash assistance or village BLT is 8.0 million families.
6. The number of electricity subsidy recipients is 37.9 million customers.
7. The 2022 APBN focuses on social protection with a total budget of 431.5 trillion.

# PHILANTHROP Homepage

The PHILANTHROP theme features a clean, modern design for charity websites. It includes a header with a phone number (+01 569 896 654), email (info@charity.com), and social media links. The main navigation bar has links for Home, About Us, Pages, Event, Contact, and a prominent DONATE button.

**Top Left Screenshot:** This screenshot shows the homepage's main banner with the text "Union, Distribution, Contribution" and "Below POVERTY LINE". Below the banner are two boxes: "Education" (with a link to "Discover") and "Distribution" (with a link to "JOIN ORGANIZATION"). There is also a video player showing two children.

**Top Right Screenshot:** This screenshot shows the "Social Assistance Program In West Java Province" page. It features a large image of a city skyline, a progress bar for "Donation" (60%, Raised: \$600, Goal: \$1,000), and a sidebar with a "Category" list: Education (3), Food (2), Medical (4), Home (3), and Water (4).

**Bottom Left Screenshot:** This screenshot shows the "Help People, Our Main Goals" section. It includes a paragraph about the government's role, a list of programs (Food Donation, Money Donation, Education Donation, Dress Donation, Toys Donation), and a "Total Donation" section showing "Collection: Rp5 Billion" and a "DONATE NOW" button.

**Bottom Middle Screenshot:** This screenshot shows a "You can help lots of people by donating little." section. It displays four cards for different programs: "Social Assistance Program in West Java Province" (85% raised, \$2M goal), "Social Assistance Program in West Java Province" (75% raised, \$2M goal), "Social Assistance Program in West Java Province" (50% raised, \$2M goal), and "Social Assistance Program in West Java Province" (75% raised, \$2M goal). Each card has a "DONATE" button.

**Bottom Right Screenshot:** This screenshot shows the footer area. It includes links for Give Life, 10k Worldwide Client Already Connected, Quick Link, Get In Touch, Address, Newsletter, and Follow Me. Social media icons for Facebook, Twitter, LinkedIn, YouTube, and Instagram are also present.

# PHILANTHROP Donation page

The screenshot shows a dark-themed website for 'PHILANTHROP'. At the top, there's a navigation bar with links for Home, About Us, Pages, Event, Contact, and a red 'DONATE' button. Below the navigation is a section titled 'Social Assistance Program In West Java Province' featuring a large image of a modern building under construction. To the right is a sidebar with a 'Category' dropdown menu showing options like Education, Food, Medical, Home, and Water. A central modal window is open, titled 'Your Donation', showing a donation amount of '\$10.00' and a 'Custom Amount' input field. Below this is a 'Select Payment Method' section with radio buttons for 'Test Donation' and 'Offline Donation'. Further down is a 'Personal Info' section with fields for First Name, Last Name, Your Email, and a Comment area. At the bottom of the modal is a checkbox for 'Agree to terms?' and a 'Donate now' button. The background of the main page has a sidebar with various charity-related links and a 'Start the discussion...' section.

This screenshot shows a continuation of the 'PHILANTHROP' website. On the left, there's a chart titled 'Total points' showing a fluctuating line graph from August 2018 to May 2019. On the right, a red callout box contains a quote: "'In the end, maybe it's wiser to surrender before the miraculous scope of human generosity and to just keep saying thank you, forever and sincerely, for as long as we have voices'". Below the chart and quote, there's a section titled 'We Are Need Your Help' with a list of bullet points. At the bottom, there's a testimonial box for a donor named Cincinnati, which includes a small profile picture and text about her donation.

# INTRODUCING FEATURES/TOOLS

# INTRODUCING FEATURES/TOOLS

---

The necessary features for a collaborative platform with philanthropic movements to combat poverty and promote sustainable development by 2030 include:

Features for Donors:

- Donor accounts to manage donations.
- Philanthropic program search and filtering features.
- Progress monitoring for philanthropic programs.
- Feedback provision.

Features for Philanthropic Units:

- Philanthropic unit accounts to manage philanthropic programs.
- Features for publicizing philanthropic programs.
- Donation management features.
- Progress monitoring for philanthropic programs.

Features for Government:

- Government accounts for managing social protection programs.
- Features to publish social protection programs.
- Features for managing poverty data.
- Progress monitoring for social protection programs.

Features for the Community:

- Features for accessing information about poverty and philanthropic programs.
- Features for participating in philanthropic programs.

# INTRODUCING FEATURES/TOOLS

---

User Flow: User flow for this collaborative platform is as follows:

Donor:

1. Donors register and create an account on the platform.
2. Donors search for and screen philanthropic programs.
3. Donors choose the philanthropic program they want to donate to.
4. Donors make donations.
5. Donors monitor the progress of philanthropic programs.

Philanthropic Organizations:

1. Philanthropic organizations register and create accounts on the platform.
2. Philanthropic organizations publicize philanthropic programs.
3. Philanthropic organizations manage donations.
4. Philanthropic organizations monitor the progress of philanthropic programs.

Government:

1. The government registers and creates an account on the platform.
2. The government publishes social protection programs.
3. The government manages poverty data.
4. The government monitors the progress of social protection programs.

Public:

1. People access information about poverty and philanthropic programs.
2. The community participates in philanthropic programs.

# CONCLUSION

# CONCLUSION

The history of community networks in Indonesia can be traced back to the Majapahit Kingdom. For example, people collaborated to build

Ending Poverty in All Forms Everywhere Through the Philanthropic Movement... However, there are some challenges, including:

- High poverty rates in Indonesia and other developing countries.
- Social conflicts in welfare policies.
- Unequal distribution of social protection.
- Inefficient distribution of social protection programs and benefits.
- Mis-targeted distributions.

# OUR HOPE

We hope to evaluate the efficiency and effectiveness of social protection programs in Indonesia to better understand each year's progress in poverty alleviation. Challenges to social protection programs in Indonesia include data accuracy for program targeting, unaccompanied programs lacking a measured graduation policy, fragmentation among social protection programs not yet well synergized, and the need to strengthen programs to create a responsive social protection system for future crises.

# MESSAGE FROM OUR LEADERS

(Secretary-General of the United Nations)

**“Everyone deserves to live a life free from poverty & a chance to thrive. We can end poverty, but we must work together across countries & sectors to support those who need the most help”**

A dark gray silhouette of the map of Southeast Asia, centered on the continent. The map shows the outlines of countries like Indonesia, Malaysia, Thailand, and the Philippines, with numerous small islands depicted as dark gray shapes.

**THANK YOU**
